Asbestos Management & Refurbishment / Demolition Survey At 216 Main St, Billinge, Wigan WN5 7PE

Survey Address

216 Main St, Billinge, Wigan WN5 7PE

Survey Date

When you accept the quote, please specify your preferred day in the comments.

We can carry out surveys **Monday to Friday** from **0700 (7AM) to 1700 (5PM)** and **Saturday 0800 (8AM) - 1700 (5PM)**. We also can carry out surveys out of hours by request.

We can also usually carry out your survey within a few days of booking.

How our services work.

1. Once you accept our quotation, we will contact you to arrange a suitable time to carry out your survey.
2. You will receive a tracking link when the surveyor is on the way to the site with an ETA
3. Once on-site, the surveyor will carry out the survey.
4. Your invoice will then be sent to you via email once your booking is confirmed, which will include all the payment details.
5. Any samples will then be sent to the Lab for analysis.
6. Your report will then be compiled with the results from the sample analysis.
7. Once the payment of your invoice has been received, your report will be sent to you via email.
8. All of this happens within 2-4 days of your site visit. We also offer the option to receive your report within 1 day in urgent cases.

No Hidden Charges

The price on this quotation is all you will pay, we don't charge extra for samples.

We are trusted.

We have over 1500 5 Star reviews from our happy customers!

Asbestos Refurbishment Survey

100.00

x 1

100.00

To carry out a Refurbishment / Demolition Asbestos Survey to all areas in accordance with HSG264 by a British Occupational Hygiene Society (BOHS) P402 Qualified Asbestos Surveyor and all samples are analysed by a UKAS Accredited Lab.

The final report will include the following:

- Photographs of all suspect items sampled or inspected
- Bulk analysis results/certificate
- The type and extent of asbestos-containing materials located
- Annotated site plans
- Findings and recommendations, including any 'Pre-works hazard statements' if applicable

Online Asbestos Awareness Training

Asbestos is an extremely hazardous substance that causes serious ill-health to anyone who disturbs or damages it. For this reason, all workers who may come across asbestos or asbestos-containing materials (ACMs) must be trained so that they can work safely. This includes accidental discovery of asbestos, and accidental damage to asbestos and ACMs.

This IATP accredited Asbestos Awareness (Category A) course provides a comprehensive introduction to the dangers of working with asbestos. By taking our training you will understand how to comply with the Control of Asbestos Regulations 2012. You will understand what asbestos is and where you may encounter it, the dangers associated with asbestos exposure, and what to do if you discover asbestos. This knowledge will help you or your team to stay safe around asbestos.
